## Virtual Series

### **Dr. Matthew Daskilewicz**

Dr. Matthew Daskilewicz is a Senior Engineering Specialist in the System of Systems Engineering Department at The Aerospace Corporation. In this role, he is the lead developer of the Portfolio Decision Support Tool (PDST) and contributes to several digital engineering initiatives around the corporation, including as a member of the corporate data governance strategy team. He is particularly interested in building interactive software for understanding and communicating changes and updates made to models and data as programs evolve, and solutions for making information accessible across tool boundaries. Matt holds B.S., M.S, and PhD degrees from Georgia Tech.
